The Austrian NGO Südwind has been campaigning for sustainable global development, human rights and fair working conditions worldwide for over 40 years.

Südwind's key fields of action are Global Education and the introduction of international development issues and concerns into civil society initiatives, mostly via events and campaigns. The work also includes lobbying relevant political decision-makers. Südwind informs about international development-related issues and critically questions policies that maintain or increase inequality, ostracize the socially powerless, and breach basic human rights. Südwind develops solutions, alternatives, and visions for global justice through dialogue with partners from civil society and developing countries.

Südwind is active in the Republic of Moldova for more than ten years, cooperating with its partner Gender Centru in the framework of EuropeAid DEAR and Ministry of Social Affairs (BMSGPK) projects on decent work. Through a Speakers Tour, Gender Centru was involved in the training course with Austrian trade unions and NGOs and long term relations were established including regular exchanges and collaboration is continued.
