Understanding intergenerational learning

A collaborative approach to education where people from different age groups come together to share knowledge skills , values and experiences.

It builds on strengths and insights of each generation , creating a mutual learning environment that benefits all participants promoting social cohesion , preserving cultural and historical knowledge.

Nexus between intergenerational learning and agroecology

Knowledge transfer of traditional farming techniques

Preservation of biodiversity and indigenous crops

Promotion of sustainable land management

Incorporation of modern techniques and technologies

Community- based agroecological resilience

Shared environmental ethic

Agroecology as an avenue for enhancing intergenerational relationships

CONTINUITY OF

Role of youth in facilitating transition to agroecology

Learn	Learn from practice and action research
Practice	Practice agroecology
Create	Create a movement around agroecology
Educate	Educate others
Think	Think the business side of it
Participate	Participate in advocating for change

The 1000 Youth Summit

- 4 thematic areas
- The summit of solutions
- Launch of the book **Youth stories of experiences**

Youth Summit Demands

Advocate	Advocate for a shift to agroecology across Africa's food systems
Demand	Demand increased investment in agroecology
Promote	Promote Agroecology as a just climate action
Include	Include agroecology as the central to the CAADP Kampala Declaration
Ensure	Ensure equitable access to land, water, energy, and vital resources for youth, small producers, and entrepreneurs to drive agroecological innovation.
Strengthen	Strengthen political dialogue

An aerial photograph of a multi-lane highway bridge spanning across a body of green water. The bridge has several lanes in each direction, with white lane markings and a central divider. Several vehicles, including cars and trucks, are visible on the bridge. In the top left corner, there is a solid blue horizontal bar.

THANK YOU
